### "One Four Love Pt. 1"

Visit "[One Four Love Pt. 1](#)" on MotoLyrics.com

[Talib Kweli]

Yo you sent out the signal right?  
And this is what happened  
The voice of Hip Hop got heard  
Never compromised this is how we put it down c'mon

[Kool G Rap]

Throughout my thuglife I've seen the ???  
Like ??? fight over the role of dice  
Flashing whole lights when killas on a hiest  
So contight, get poltergiest over the bowl of Christ  
Who pulled the slice from cats aiming gats who  
showed the hiest  
Told you right she be the one that come and hold your  
mic  
Then aim it at the whole vice squad just like ???  
Rollin like every prototype was dolomight  
One man recall his ice inside his gun hand he holds for  
life

[Rah Digga]

This for the ones with holes in they graves  
Waitin for they piece when the law misbehave  
I say we off ??? watch 'em walk the beat  
Like you can't cross streets make them all retreat  
(now) Judges and the jury be a little to appointed  
Making us defendants when we supposed to be the  
plantiffs  
Laugh now cause soon the thrill stops  
Heads get it on and start to kill cops

[Sporty Theivz]

I'm sober but the pull me over  
What i do yo? (what we do yo?)  
Poe-poe go i'm drivin to slow (cool yo)  
I torin' them explorin them (damn)  
For them that's why i'm ignoring them (uh-oh)  
Bring like king skip  
Before they bring this to some Rodeny King shit  
Forget them fools  
Now make no sudden moves

They reachin for they tools (let's move)  
You buggin dude  
Kirk you ran the stop, word them pigs frontin  
Yo tell like you tell 'em cousin we ain't did nothin  
All they see is three blacks in a jeep with seats back  
Lookin for ??? packs how the blood dog can eat that  
They thirstin for a reason to blast you can't beat that  
Gats and a badge to match you can beat that so  
bounce 'em

[Mos Def]

My people unite and let's all get down  
We gotta have what? love peace and understandin  
One god, One love, One light  
One aim, One voice, One fight  
My people unite, hop up and do it right  
We gotta have what? love peace and understandin  
One god, One love, One light  
One aim, One voice, One fight  
My people unite, hop up and do it right  
Do it right ya'll, keep it tight ya'll, do it right ya'll, just do  
it

[Shabaam Sahdeeq]

Blood on they hands, blood on my mans  
Destroying the fam  
More souljers die, another mother cries  
Anthony Buyers, ??? ???, Diallo  
Let it keep happenin and theirs more to follow  
It's even deeper then that penal shot in the back  
Forever we fight and cus but the world still adjust  
So many bullets just to stop one man  
Is that the plan,  
To leave us all dead in the street

[Common]

I'm an opponent of violence  
To many of my guys have to condome it in silence  
Law takes lives and can only do violence  
And with night sticks i write quick  
Hopin that

[Talib Kweli and Common]

I might hit somebody in the heart

[Talib Kweli]

Like an arrow with her eyes on a sparrow  
Yo i feel my peoples pain all in my bone marrow

[Common]

I'm tellin Pharoahe to let my folks go

Ma's been singin to law like they background vocals

[Talib Kweli]

Local, state, federal cops have been payed properly  
To protect the property  
How can i just stand by and watch a man die for nothin  
and not react  
The way we spit on this track is how we bustin back

[Common]

Yo i pimp slap 5-0  
Get behind them and make the marks drive slow

[Talib Kweli]

Yo, you wanna know how to improve on the quality life?  
Try respectin it step into my zone and maifest a check  
in it

[Pharoahe Monch]

Cops they transport me from Long island to Medina  
with they fucked up demeanor  
Dreamin of stickin it to me like Abner Louima  
Pharoahe slash El-Hajj Malik Shabazz  
with plans of retaliations of they coward ass  
God please allow me to preach for 'em  
A voiceless man through a spirit i speak for him  
Step to city hall if a dove flew for Diallo  
with a vision of cops inside the Public Enemy logo

[Posdnous]

All that scheming and plotting  
The young absorb like cotton does  
Ecspecially in my city where the boys steady rockin in  
You would thought 5-0 would cut it all short  
But they play the biggest part in the art of living arms  
In our land cops guns clap more then hands  
As if we don't deserve what they hear to preserve  
We just tryin to do it right in these worlds that we rappin  
in  
While they trying to fill us all up with more lead then  
zepilin

[Everyone Lead by Mos Def]

My people unite and let's all get down  
We gotta have what? love peace and understandin  
One god, One love, One light  
One aim, One voice, One fight  
My people unite, hop up and do it right  
We gotta have what? love peace and understandin  
One god, One love, One light  
One aim, One voice, One fight

My people unite, hop up and do it right  
My people unite and let's all get down  
We gotta have what? love peace and understandin  
One god, One love, One light  
One aim, One voice, One fight  
My people unite, hop up and do it right  
We gotta have what? love peace and understandin  
One god, One love, One light  
One aim, One voice, One fight  
My people unite, hop up and do it right  
My people unite and let's all get down  
We gotta have what? love peace and understandin  
One god, One love, One light  
One aim, One voice, One fight  
My people unite, hop up and do it right  
We gotta have what? love peace and understandin  
One god, One love, One light  
One aim, One voice, One fight
