[mos def]

Here we go y'all

Ge ge ge ge ge get down, and get down

Ge ge ge ge ge get down, and get down and it's yours

Ge ge ge ge ge get down, and get down and it's yours

"here we go, there it is" (run-dmc sample)

Memories don't live like people

I have to pack up my bags and leave you

When you're gone I am longing to see

I'm a travellin man, movin through

I'm leaving, on a jet, when you're gone I get so upset

I'm a travellin man, movin through places

Packed my bags, arranged my suitcases

I got to tie up both my shoe laces

Kiss my cheek and see me gone

I'm leaving, but God willing I'll be back

I'm leaving, headed on the fast track

Aiyyo six in the morning, I'm up at dawn crackin

Wash up my face and start my back packin

Get my head together for the fantastic voyage

On a fastbreak like the georgetown hoyas

Kiss my baby bye, tell my honey don't cry

Wipe the tear from her eye, say so long then I fly

Then I'm off into limitless space wit swift pace

Left a few g's at the place just in case

Wit hace I get snappy, hit the corner hail a cabby

Brooklyn expressway, on the jfk

And wit no delay, so step on it dog-gonit

These fly outta-staters got the paper and I want it

The voice on percussion need no introduction

The mighty mos def on dj honda production

My jam keep you buzzin, like cash and good lovin

I'm stayin farm fresh, I ain't mos def for nuttin

So if you're in the groove let me see you move

something

You're in the tri-state and you high stakes hunting

You wake up in the morn' sayin "must make

something"

Well I got something special to make, let's motivate

Say memories don't live like people
I have to pack up my bags and leave you
When you're gone I am longing to see
I'm a travellin man, movin through places
I'm leaving, on a big jet
I got to hurry up and keep up in step
A travellin man, movin through places
Packed my bags, arranged my suitcases
I got to tie up both my shoelaces
Kiss my cheeks and see me gone
I'm leaving, but I won't be too long
I'm leaving, and I'll be good while I'm gone
I'm leaving *with variations*
But I'll be back again, but I'll be back again
I'm makin tracks again, step it up, my garmet bag on
my back again
"here we go, there it is"

Yo it's the first class mission wit first class provision
The pray and hard work results is good livin
Let's hear it for the gettin, let's get all that we can
It's important and it's scorching so the fortune expand
Crossin borders of land, along the sands of time
I came to motivate the masses wit the standard of
rhyme
You're understandin that I'm (so fresh)
They know it all across the planet that I'm (so fresh)
Mos def, takin both steps forward, these notes was
recorded
The area's applauded, I feel so rewarded
By the grace of allah, you can shine like a star
The more you realize reality the better you are
But now I'm swayze, three minutes and change, you
know the game
Gotta skate, plenty paper to make, here come the
plane 'cause

Memories don't live like people, I have to pack up my
bags and leave you
When you're gone I am longing to see
I'm a travellin man, movin through spaces
I'm leaving, on a big jet, when I'm gone you get so
upset
I'm a travellin man, movin through places
Packed my bags, arranged my suitcases
I'm out to see some brand new faces
Kiss my cheeks and see me gone
I'm leaving, but I won't be too long
I'm leaving, so dry your eyes while I'm gone
I'm leaving *with variations*

But I'll be back again (5x until fade)
