Gibberish is your wicked tongue  
A lame lame man rules with a gun  
My medications failed me again  
Chemical rainstorm is burning through

There was no two tighter  
There was no two higher  
I couldn't stay much drier

Under your umbrella all the time  
And I've been meaning to thank-you  
For quite some time and I lie

Fall is upon us again  
Fall from heaven she surely will  
My medications failed me again  
Chemical rainstorm is burning through

I could not see for the sunspots in my eyes  
Could you please remove your disguise  
Only so I can see  
Who's behind the bull#### lies
