Met you standing in the rain
Soaking ##### wet without a destination
Saw you screaming at the sky
Fist full of reasons you don't wanna die
Caught you lying on the ground
Weeping where's my ##### Jesus

And we were warm
And we were dry
Somehow the time
Just flew by
The days rolled on
The years they fell away

Seen you swallow a mouth full of fiction
And toss a warm smile my way
Saw you screaming at the sky
Fist full of reasons you don't wanna die
Seeing as your headed the same direction
