

Jay Struthers "She Is Our Mother"

Visit "[She Is Our Mother](#)" on MotoLyrics.com

Your all smiling and your all dying
Liars and thieves work for the spineless
March, march die save yourselves
She is our mother, she'll kill us away

Everyone here will end up in dirt
We should take care of our place
All of our elder's they are to blame
They should walk the earth with no names

I won't pay for your dirt, just ##### burn me
Her youngest son, today he's a drummer
He'll keep her safe, but he'll keep her awake
She is our mother, she'll kill us away

Everyone here will end up in dirt
We should take care of our place
All of our leaders they are to blame
They should walk the earth with no names

Everyone here will end up in dirt
We should take care of our place
Everyone here, were all to blame
