We can't believe we were saved by the Bell
Almost lose it he screamed whoa what the hell?
A massive disaster avoided right on time
A cruelest painful destiny is out of my life

Miracle is a thing I'd use not to believe
Unpredictable what I've learn how to see

Prayers, believers, sinner all kinda crew
We were one of them just stupid like you
Pretending to be a king with money on my mind
It's all false now finally we feel we're really alive

Miracle is a thing I'd use not to believe
Unpredictable what I've learn how to see

Miracle is a thing I'd use not to believe
Unpredictable what I've learn how to see
