The moon is high now
It's a long fall from my window
Into your arms
Throw my bag in your car
And we'll fly away

Hearts beat fast now
The road lays out before us
And we've got the kind of feeling like
Nothing's ever going to be the same

'Cause we are free now
I don't want to talk about
Anything back there
Tail lights face the past now
But our eyes see only what lies ahead
Come lay with me somewhere out there
Away, away
Away, away

I'm waking up now
Praying I'm not still dreaming
Then I feel you beside me
Now I can breathe again

The sun is rising
In the rearview mirror
And it's all over your eyes
And you've never looked this good
And you'll never look this good again

'Cause we are free now
I don't want to talk about
Anything back there
Tail lights face the past now
But our eyes see only what lies ahead
Come lay with me somewhere out there
Away, away
Away, away

Away, away, away, away
Away, away, away, away

'Cause we are free now
I don't want to talk about
Anything back there
Tail lights face the past now
But our eyes see only what lies ahead
Come lay with me somewhere out there
Away, away
Away, away
