sometimes i just get so fed up  
the more we kiss and each more that we make up  
from your attitude to what i see inside you  
i wanna keep you around  
but i don't know how  
we're up and we're down  
and i can't figure it out (no)  
got a decision to make  
but it's just too hard to make  
cos i just don't wanna break what we have  
do i deserve her  
does she deserve me  
it's all a question  
i need an answer

do you deserve my best  
i don't wanna give you up  
i can't lose my best friend  
i mean everything to you  
you mean everything to me  
but do you deserve my best  
do you deserve my best

ooh girl you know that i love ya  
i wouldn't wanna be without ya  
girl you're my rock, you're my heart  
so lets make it work for each other

when i sit all alone and i think of  
if i let you go could i be alone without ya  
it's killing me to see that we are dying  
but i don't know why cos we're good for each other  
who's shooting us down  
got a decision to make  
but i just don't wanna make  
cos i just don't wanna break what we have  
do i deserve her  
does she deserve me  
it's all a question  
i need an answer  
do you deserve my best  
i don't wanna give you up

i can't lose my best friend  
you mean everything to me  
i mean everything to you  
but do you deserve my best  
do you deserve my best

the best that i can give is my whole heart plus more  
and i don't think it's hard for you to see that  
from every hour to every minute  
i need your love  
i can't breathe

do you deserve my best  
i don't wanna give you up  
i can't lose my best friend  
i mean everything to you  
you mean everything to me  
but do you deserve my best  
do you deserve my best

ooh girl you know that i love ya  
i wouldn't wanna be without ya  
girl you're my rock, you're my heart  
so lets make it work for each other

do you deserve, i said do you deserve (yeah yeah)  
do you deserve my best  
do you deserve my best  
deserve my best
