Walk up in the club and you are looking like that  
Pocket full of stack and they are hating like that  
Shawty is in the back .. like that  
They don't really know who I will be  
In the end charm cause I got that stack girl  
Give me young money cause I got my ,  
So much money I keep the girl on .,  
They know who I'll be  
Give me that girl cause you know I want that (repeat)

You can find me tipsy brand low low  
I can take that baby girl let me know know  
Pocket full of money uh girl do it slow  
, little mom drop it low  
If you knew that girl you got to move fast  
Let me build your mind put it down no cash  
You can really feel it .. I am gonna make you my  
diamond girl

You know I don't do .. I don't move it like they do  
I don't hit like they do  
And you know I can do this all night  
(repeat)

Thanks to feel
