It's the prison break anthem, prison break anthem.

Just what you need, just what you need.

There's a story about a man, he'd be puttin' it down.

Some real shit his brother locked up now.

Penitentiary Illinois out of town.

Death row, it's fucked up now.

Jail down by the government in a couple of weeks.

Survive his brother he needs.

Gotta prove that he is innocent it is hard on the streets.

That's why I can't accept defeat.

He ain't a hustler good guy, intelligent that's why;

(Prison break anthem)

You know what I'm talking about.

He ain't a hustler good guy, intelligent that's why;

(prison break anthem, prison break anthem)

(chorus)

Okay; It's the prison break anthem, prison break anthem.

Just what you need, just what you need.

My brother locked up freedom it's over now I gotta do what I gotta do.

I'm making it happen.

Prison break anthem, prison break anthem.

Just what you need, just what you need.

My brother locked up freedom it's over now, I gotta do what I gotta do.

I'm making it happen.

Convicted for murder first degree.

As I praise the lord.

God, please set me free.

I'm on parole now, what you want now?

Black, white, any colour let's go now.

2Years 6Months in a cell 40.

(chorus)

(whisper: prison break anthem, prison break anthem)

It's the prison break anthem, prison break anthem.

Just what you need, just what you need.

My brother locked up freedom it's over now I gotta do what I gotta do.

I'm making it happen.

Prison break anthem, prison break anthem.

Just what you need, just what you need.

My brother locked up freedom it's over now, I gotta do what I gotta do.

I'm making it happen.

(whisper: prison break anthem, prison break anthem)

Yeah, Yeah, Yeah,

Michael Scofield, the great escape, the clock is ticking...

Prison break,

Lincoln Burrows; Break in break out, "bloodbound I'm familiar with what it's about.

Promise to reveal pieces to the puzzle.

Major, major hustle.

Gotta prove he was framed.

Framed for the crime.

And on the real it's popping official

We strike like a missile.

(Chorus)

it's the Prison break anthem, prison break anthem.

Just what you need, just what you need.

My brother locked up freedom it's over now I gotta do what I gotta do.

I'm making it happen.

it's the Prison break anthem, prison break anthem.

Just what you need, just what you need.

My brother locked up freedom it's over now, I gotta do what I gotta do.

I'm making it happen.

(whisper: prison break anthem, prison break anthem)

it's the Prison break anthem, prison break anthem.

Just what you need, just what you need.

My brother locked up freedom it's over now, I gotta do what I gotta do.

I'm making it happen.

it's the Prison break anthem, prison break anthem.

Just what you need, just what you need.

My brother locked up freedom it's over now, I gotta do  
what I gotta do.

I'm making it happen.

it's the Prison break anthem, prison break anthem.

Just what you need, just what you need.

My brother locked up freedom it's over now, I gotta do  
what I gotta do.

I'm making it happen.
