Well I don't know how to say this right here but,
The very first time i saw you babe â€¦
Uhu, I just know from the very first time that your one
of a kind â€¦

That's why I love your profile
I wasn't sure about the words you said,
That you'll be mine
I wasn't sure about the words you said,
Your one of a kind

But there something looking trough the wind,
the one the sun was about to shine.
I remember this about the days you used cruise your
ramp,
I used to pick you up in my pick up truck,
yeah, U was a cover girl I had to make U up like flip
said:
Never really was between you and me,
That was straight with love.

I love you're profile baby,
love ya pretty smile lady,
But most off all girl, I love the way you are
I love you're profile baby,
love ya pretty smile lady,
But most off all girl, I love the way you are

I used to a player, but not any more.
And the reason is U,
cause your the girl that I saw.
so fresh put you in prada,
you know that I gotta think,
going on that's why
I'm writing this song
Cause you're my hook line baby girl,
that's where you belong.
I got things that you knew.
Even the air that's I breath,
I was tear up with you.
cause you're the girl that I need.

your profile baby,
I love you smiling lady

I love you're profile baby,
love ya pretty smile lady.
but most off all girl, I love the way you are.
I love you're profile baby love ya pretty smile lady,
but most off all girl, I love the way you are

You're my sunshineâ€¦,
you're my valentineâ€¦,
you're my angel playing nanana
You're my sunshineâ€¦,
you're my valentineâ€¦,
you're my angel playing nanana

if you ma profile girl,
then let me see those hands,
and make it, clap,
clap for me.
my profile girl, my profile girl
if you ma profile girl,
then let me see those hands,
and make it, clap,
clap for me.
my profile girl , my profile girl

I love you're profile baby,
love ya pretty smile lady,
but most off all girl, I love the way you are.
I love you're profile baby,
love ya pretty smile lady,
but most off all girl, I love the way you are
I love you're profile baby,
love ya pretty smile lady,
but most off all girl, I love the way you are.
I love you're profile baby,
love ya pretty smile lady,
but most off all girl, I love the way you are
