The runners,

Oh ooh, oh ooh,

It's C O S S O M,

I'm him, you probably wanna get this on film,

We going in,

We about to get poured up,

Everybody in this b*tch about to get poured up,

Drinks on me we about to get poured up,

Money everywhere we about to get poured up,

Look at all that ass pretty face long hair,

You might be the finest in the city,

Look at all this cash I'm trynna get rid of it,

All you gotta do is keep looking pretty,

So baby let's go, you can bring your homie,

We got shots of that patrone and a whole bunch of that
rose,

I got so much doe to blow, it ain't even funny,

So just order what you want and you can tell 'em keep it
coming,

I - I ain't ever seen nothing like you,

And I guarantee you never seen nothing like this,

(never ever)

It's getting kinda crazy up in here,

It's about to be a night that your glad you didn't miss,

(drink some up)

What can I say we live the good life,

Working all day,

Party all night,

We about to get poured up,

Everybody in this b*tch about to get poured up,

Drinks on me we about to get poured up,

Money everywhere we about to get poured up,

Hey baby are you ready,

I hope that you ready,
Say that you invited but it's about to get heavy,
Got everybody in here with they hands up high,
Got the fireworks but it ain't the 4th of July,

I - I getting poured girl you already know,
Spilling drinks on the floor damn go and get some
more,
Go and get some rose go on and have a good time,
Toast to the good life,
Yeah we gon' have a good night,

I - I ain't ever seen nothing like you,
And I guarantee you never seen nothing like this,
(never ever)
It's getting kinda crazy up in here,
It's about to be a night that your glad you didn't miss,
(drink some up)

What can I say we live the good life,
Working all day,
Party all night,

We about to get poured up,
Everybody in this b*tch about to get poured up,
Drinks on me we about to get poured up,
Money everywhere we about to get poured up,
