Lately my head's been up in the clouds
I found someone that can put a smile on my face
And whenever you come around for some reason
I never know what to say
It sends chills through my body
Baby whenever your name gets mentioned
Oh baby I'm sorry every time I try to tell you how much I
want you
I start to get nervous
My thoughts just go missing
You're the closest to perfect
But the next time I get your attention I'ma say hey baby
baby

Don't you know you drive me crazy I think you should
be my lady
You're the baddest hands down, tell me where you at
Next time you come around I'ma say it just like that
Say it just like that, say it just like that
I'ma say you just like that, I'ma say it just like that

Hey hey if you are my girl I will never let you get away
And if I could baby I promise I would be around you
every day
Giving you flowers and kisses just to brighten up your
day
When you walk by I just get shy and all the words run
away
I start to get nervous
My thoughts just go missing
You're the closest to perfect
Yeah there's something 'bout you girl that's different

I'ma say baby baby baby
Don't you know you drive me crazy I think you should
be my lady
You're the baddest hands down, tell me where you at
Next time you come around I'ma say it just like that
Say it just like that, say it just like that
I'ma say you just like that, I'ma say it just like that

I'ma say baby baby baby
Don't you know you drive me crazy I think you should
be my lady
You're the baddest hands down, tell me where you at
Next time you come around I'ma say it just like that
Say it just like that, say it just like that
I'ma say you just like that, I'ma say it just like that
