Nasty girl in my bedroom  
Look at the sky, it's a full moon  
It's going down, she feelin right  
I'm a fill her up, she keep it tight  
Coconut Ciroc, call it cocoa puff  
A few cups of that, she gon go go nuts  
She opens up (yeah), let me in (yeah)  
Shut the door (yeah) let's begin  
Then I'm a take highway (downtown)  
Pull up in your drive way, I'm done playin round  
I'm going in, time to get the work  
She told me that it feel good when I make it hurt

I ain't gonna play no games, gonna make you say my  
name  
I came to put in work (oh yeah)  
I'm clockin in no time, girl all we do is grind  
I came to put it work (oooh yeah.)  
I'm a throw on that hard hat and get to work, get to  
work  
You know it's safety first (oooh yeah)  
Girl I'm good wit my hands, Quit f \*\*kin wit yo mans  
I came to put in worrrk yeeeaahh  
I'm on a slip and slide it feels like a water ride, when  
I'm inside ( oh yeah)  
Face to face your legs wrapped around my waist, I'm  
gon make you say (oh yeah)

Chorus:

(Uh) And we about to go live  
From over here you looking like a five plus five  
Told me that you been keepin it tight  
So I really wanna know what it feel like inside  
I'ma make your day  
I'ma make you say, make you say  
I'ma make you say, make you say  
Oh yeah we about to go dumb  
I'ma beat it beat it beat it till its numb  
I'ma make it so good  
Have you sleeping like a baby you be sucking your  
thumb  
Do it every which way

I'ma make you say, make you say (uh)  
I'ma make you say, make you say ahh.  
oh yeah, oh yeah, ooohh  
oh yeah ,yeah yeah, yeah yeah

Our bodies fit together like a puzzle babe  
That's why I love it when you lovin me  
Few glasses of that bubbly  
And a little bit of your company  
Leads us to our favorite spot  
Let's call it ecstasy,  
How I always get you hot, just from being next to me  
Running this hill like a marathon  
Do my thing ,quick break, then carry on,  
Stamina high we can go very long  
Going crazy of your pheromones, the chemistry is of  
the charts  
When our bodies touch I feel a spark yeeaa (oooh oh  
yeeaa )  
I'm on a slip and slide it feels like a water ride when I'm  
inside  
Your body is like magnet, I can't get my hands off  
yooooo yooooo

Chorus:  
(Uh) And we about to go live  
From over here you looking like a five plus five  
Told me that you been keepin it tight  
So I really wanna know what it feel like inside  
I'ma make your day  
I'ma make you say, make you say  
I'ma make you say, make you say.  
Oh yeah we about to go dumb,  
I'ma beat it beat it beat it till its numb  
I'ma make it so good  
Have you sleeping like a baby you be sucking your  
thumb  
Do it every which way  
I'ma make you say, make you say (uh)  
I'ma make you say, make you say ahh.  
oh yeah, oh yeah, ooohh  
oh yeah ,yeah yeah, yeah yeah
