Oh, yeah, yeah

All I really wanted was you, was you
Oh, you sounded like you traveled the sea before
Oh, and now I'm caught up in the rapture
Like my name wasn't even ?
And there could nothing I can do to shake ya
And when you entered my space
It's like you conquered my world
And now my body reacts to your love

[Chorus:]

Listen to the rhythm of my heart beat
For you, for you, for you, for you
Because every time I think about you staying in my
heart beat
Skipping, skipping for you (skipping)
My heart beat be going boom, boom, boom
My heart beat be going boom, boom, boom
My heart beat be going boom, boom, boom
Won't you listen to the rhythm of my heart beat

All I ever needed was you, just you
You had me like you knew that I'd come for more
I'm so caught up in the rapture
Like my name was even ?
And there could nothing I can do to shake ya
And you kissed on my lips
Yes, I knew that was it
Now, my body reacts to you

[Chorus:]

Listen to the rhythm of my heart beat
For you, for you, for you, for you
Because every time I think about you staying in my
heart beat
Skipping, skipping for you
My heart beat be going boom, boom, boom
My heart beat be going boom, boom, boom
My heart beat be going boom, boom, boom
Won't you listen to the rhythm of my heart beat

The rhythm, the rhythm, the rhythm, the rhythm
Listen to the rhythm of my heart beat
The rhythm, the rhythm, the rhythm, the rhythm
Listen to the rhythm of my heart beat, oh

[Chorus:]

Listen to the rhythm of my heart beat
For you, for you, for you, for you
Because every time I think about you staying in my
heart beat
Skipping, skipping for you
My heart beat be going boom, boom, boom
My heart beat be going boom, boom, boom
My heart beat be going boom, boom, boom
Won't you listen to the rhythm of my heart beat
My heart beat be going boom, boom, boom
My heart beat be going boom, boom, boom
My heart beat be going boom, boom, boom
Won't you listen to the rhythm of my heart beat

Wont you listen to my heart beat
For you
