Five O'clock I cant sleep, thought of you, running
through my veins
Where do we go from here, my love, I don't know
If you are gonna stay
But I know, my heart's gonna be(2x)
Right here

My heart is waiting for you, right here
What's left of me is right here, ooooh
U can see me(2x)

Distance has taken, the best part of me, tears wont dry
All I've ever wanted, all I've ever wanted has taken,
what I need
I'm not putting you on a pedestal(2x)
You're just what you are

My heart is waiting for you, right here
What's left of me is right here, ooooh
U can see me(2x)

Bridge:
The next time, I'll make sure
You were so close to me, u can feel my breath
