Rays of light peek in through my blinds
Blinding me into believing that the night is gone
Tomorrow should be here in your arms
Forever should understand we summoned love into
this room
Sleep love, the bed compliments your shape.

Chrs:
Its in ur eyes, I know that I am loved(3x)

Pre 2nd vs:
Sleep love, sleep love
UÂ're all I want

I step back to walk behind you
Watching ur every move makes me feel so proud
Trying these days to say what I want
But you already know, uÂ're my pill
Sleep love, the bed compliments your shape.

Chrs:
Its in ur eyes, I know that I am loved(3x)

Bridge:
YouÂ're my light
Fall in love, I just might
The feeling is right
No need to fight, it

Sleep love, sleep love
UÂ're all I want
