[Verse 1:

Budah in my blunt, I must got good karma  
It's a reason why I'm rollin in this Fisker Karma  
Every check got license digits after every comma  
That's 6 degrees of separation, watch me meet Obama  
Just bought a new whip for my baby mama  
Came with a driver cause she ride for our baby  
daughter  
And that's gone save a lot of drama  
Thank God for that almighty dollar

[Chorus:]

Money over everything, know why,  
'Cause money changes everything, no lie,  
That almighty dollar, dollar, baby  
She make all my problems, fade away  
Almighty dollar, ooh

[Verse 2:]

Ain't official in these streets, you better pay your taxes  
I don't need no passes, all my niggas active  
Just bought a crib way out in Calabasas  
But I still be in the hood like a V-8 engine  
Vroom, vroom, my coupe got leg room  
I'm laying back and reclinin, my ceiling's the sun roof  
Reflections of diamonds shining, my smile is bright as  
the moon  
It's like I made a wish on a star and it came true, true

[Chorus:]

Money, money over everything, know why,  
'Cause money changes everything, no lie,  
That almighty dollar, dollar, baby  
She make all my problems, fade away  
Almighty dollar, ooh
