Don't be shy  
Take it off (yeah)  
Let it drop  
Let it fall  
Turn off the lights,  
It's alright,  
Girl tonight, it just might be your night  
Awww baby  
Tonight, is the night  
That I do everything that you like

So here we go  
Ready or not  
Na uh uh  
I'm kissing every  
Spot spot till I find  
The one that makes you shiver  
UhUh Uh AhUh  
Il make you say  
"Ohh god damn"

It's only me & you  
So let's get naked  
Hope you're ready for this  
Bomb love making  
The mood is right  
And we both been drinking  
Oh, I'm so ready for you  
Imm'a watch you take it off  
Take it off  
Take it off  
Them imm'a take it off  
Take it off  
Take it off  
I can't wait to strip your ass butt naked  
(Girl)  
So just take it off

I don't need a gallery  
It wouldn't be worth it  
Cause your body is a masterpiece  
Your so damn perfect

So won't you lay it next to mine  
Girl don't rush it take your time  
Take your time  
If you show me yours imm'a  
Show you mine (yeah girl)  
And you don't ever have to be afraid  
No

So here we go  
Ready or not  
Na uh uh  
I'm kissing every  
Spot spot till I find  
The one that makes you shiver  
UhUh Uh AhUh  
Il make you say  
"Ohh god damn"

It's only me & you  
So let's get naked  
Hope you're ready for this

And we both been drinking  
Oh, I'm so ready for you  
Imm'a watch you take it off

I know you need it  
Girl I'm tryna play  
In your garden of Eden  
Got that forbidden fruit & I'm tryna  
Eat it  
Eat it  
Eat it  
Before I go down  
I promise to bless it  
You gon' have me runnin' back  
For seconds  
Tryna hurry up & get ya naked

It's only me & you  
So let's get naked  
Hope you're ready for this  
Bomb love making  
The mood is right  
And we both been drinking

Imm'a watch you take it off  
Take it off  
Take it off  
Them imm'a take it off
