(Intro)

Party and bullshit and party and bullshit

(Hook)

Party city, party city, party city, party city

Party city, party city, party city

Party city, party city, party city, party city

Party city, party city, party city

Now turn up!

(Verse)

Party city, we know how to party

Sunny California you know that's what artist start

getting faded, getting wasted

But we don't get drunk and sloppy

We be sipping on that clear like that lady from the

Cosby's

Call me, call me kamikaze I'll be burning paper plans

Crazy and deranged, calling crazy in the Range

With a couple bad bitches I don't even know their name

Like that, like that Mary Jane now they all can think the
same

Real love, yeah real love when I'm down south I get trill
love,

These niggas hating, this bitches fading,

But I ain't tripping this still love,

Sipping on Ciroc, coco low so got me busy hold up,

I just sip Ciroc, I just got a check from Diddy

Turn up!

(Bridge)

When-when-when I'm in N Y, I'll be whilin sumthin

When I'm down south I be screwed up,

When I'm in the bay I be flowin dumb,

When I'm in LA, wait that's where I'm from.

(Hook)

Party city, party city, party city, party city

Party city, party city, party city

Party city, party city, party city, party city

Party city, party city, party city

Now turn up!

(Verse)

Let's go to the chase
Got a itty-bitty girl with a butt and a waist
High, up-up and away, she take too many drugs in a
day,
High, I'm bumping LA, but a nigga really got love for
the bay
Nigga fuck what they say, Ali tell what's up in the A.

(Verse)

A-skale, we pop mollie, we party hard and we turns it
up,
In the strip club like every day and we pop bottles we
throws it up,
No stripper girls they mad, so stripper girl they finest,
Throwin money at strip club, that's just another bad
habit,
I do a buck 50 on the highway, like Usher say she likes
it my way
Follow magic city day shift on Friday
Make it rain, hop inside that coupe, turn and fly away

(Bridge)

When-when-when I'm in N Y, I'll be whilin sumthin
When I'm down south I be screwed up,
When I'm in the bay I be flowin dumb,
When I'm in LA, wait that's where I'm from.

(Hook)

Party city, party city, party city, party city
Party city, party city, party city
Party city, party city, party city, party city
Party city, party city, party city
Now turn up!
