Oh, I've been thinkin' of you  
And you've been thinkin' of you  
Oh, I'll give love that I have  
If you give all that I need

And oh, let's be fair  
And I think it's time we clear the air  
You've been watchin' me, I've been watchin' you  
You know I've been wantin' to groove  
(Groove with you)

Girl, speak your mind  
(Groove with you)  
You've been thinkin' all of this time  
(Groove with you)

Oh, baby, what I wouldn't do?  
(Groove with you)  
It's spendin' my day with you

Oh, love is all in your eyes  
Love fire's burnin' for me  
You stay all in my mind  
Oh woman, it's easy to see

Oh, let's be fair  
And you know, it's time we clear the air  
You been watchin' me, I been watchin' you  
And you know, you know  
(Groove with you)

Oh, I wanna grove, I wanna groove  
(Groove with you)  
I've been thinkin', you've been thinkin'  
Thinkin' of me  
(Groove with you)

Oh, what I wouldn't do to groove with you  
(Groove with you)  
You've been watchin', I've been watchin'  
Watchin' you  
(Groove with you)

And oh, and every chance I get  
(Every chance I get)  
From the first time we met  
I wanna groove with you

I wanna groove with you, yeah  
I wanna groove with you  
I wanna groove, I wanna groove  
Babe, to you  
(Groove with you)

I've been thinkin', you've been thinkin'  
Thinkin' of me  
(Groove with you)  
I wanna groove, groove with you  
(Groove with you)

I've been watchin', you've been watchin'  
Watchin' me, baby  
(Groove with you)  
I wanna groove, groove with you

I wanna groove with you, yeah  
I wanna groove with you, baby

Listen, every chance I get  
(Every chance I get)  
From the first time we met  
I wanna groove with you

Groove with you  
I wanna groove with you  
Groove with you
