Mos Def]

Aight, uhh, alright y'all slow down I'm tryin ta
Aight, yo I I only took a little bit of Spanish you gotta
Aight I hear what you're sayin but yo, aight okay
Alright okay, alright okay okay
Alright okay, I'm feelin you, okay
Alright okay, alright okay okay
Alright okay, I'm feelin you yo
All my people in Brooklyn and you know we're hot, I say
We don't stop, the Body Rock
All my people in Queens and the land in between say
we
Don't stop, the Body Rock
Shaolin and L-I say you know we're fly, say we
Don't stop, the Body Rock
From the East to the West son we take it to the chest
say we
Don't stop, the Body Rock

Check me out y'all

I'm in the lab with Ab, I got the band they're fat
My man T-A-S-H take it to your breastplate
It's the Mighty Mos Def, complete the trilogy
Just shot myself a dime, see are you feelin me?
Son I'm wicked and nice when I'm on facility
Let me take a sec to review what I wrote.. *paper
rustling*
.. "Mos Def and I sound par fresh" OK it's dope
let's record this ('cord this) they gonna want dis (want
dis)
And all area crew is gonna flaunt this *clapping*
And when we step to the plate Pah it's flawless
My man T-A-S-H with styles glory great
Great, great great, great great uh uhh uh uhh uh uhh
uh

[Tash]

Up next we got CaTash with that West coast rhymin
Bombin niggaz with the style that's dangerous as
mountain climbin (ahhhh!)
Cause the Alkie words I'm spittin be twistin while you

listenin

Plus I'm in this motherfucker with the Likwit coalition
Gotta leave you in position, twist it backwards like
dough go

While you starin down my throat like, "Is he drunk or is
he sober?"

WHO KNOWS, all I know is Tash got flows
and got the technique to get the ladies out of they
clothes

I been overly exposed to the forty-oh's and chickens
So I'ma keep it pumpin til the beat stop kickin
or til the plot thickens, cause this is how we do
CaTashTrophe, Mos Def, and the brother man QUE!!!!

[Q-Tip]

What's up Tash, hey yo, Tip can't call it
Sure as Mos is Def and you Alkaholik
I'ma be surfin at, thing that's worth dealin
Hypodermically, shoot up your feelin
Figuratively, speakin of course now
old and greedyness, seekin it's course now
what we gonna do, eradicate them
Shoot them from the jam, they fear disease

[Mos Def]

Tash Love... are you ready to rock the mic?
Q-Tip... are you ready to rock the mic!
Mos Def... are you ready to rock the mic?
We got the universal style that you got to like!
And ain't nobody steppin up when we got the mic
So turn the A.C. up cause it's hot tonight!
And til the bright early morn' we be rockin you all
Don't stop, the Body Rock!

[Tash]

Cause I'm next to flex, and I'm technically advanced
to turn you on like cybersex, so in less than two sec's
I blind MC's like Thomas Dolby with the Science that'll
leave
they braincells fryin slowly (FIRE!) so slowly I flow and
express written consent, from the undergroundin
niggaz
Coast II Coast I represent cause gettin bent, I do
but I'm doper than sherm plus the way I put it down
could burn the perm off Big Worm, so peace and pipe
this greeting
of the Last Action Hero that be freezin rappers dead in
they tracks
like Sub Zero (Zero), cause Rico ain't no joke
I eat your flows and yo' beat up rappers even feel my
presence

when I'm home with my feet up

[Mos Def]

for what you skied up or treed up

Relax and pull a seat up, make your landlord turn the heat up

Got the opposition shook like Tiger Woods about to tee up

So niggaz no competition with the clear Mos Definition
MC's screamin now for years can't rhyme without they
mom's permission

You just a young'un comin out, gettin gassed to run
your mouth

Wildin on the Runabout, Baby Pah you comin out
Barkin that you want a bout but son you know the
comeabout

when Mos Def blow up and, you don't, nuttin

Don't you know nuttin? My crew go huntin

We keep it on the norm then we transform som'in

And while, we do it, you bounce to it

The cops wanna stop the Body Rock but don't do it

[Q-Tip]

DY-NO-MITE!!! Like Jimmy J.J.

Swap down pen-ny, somewhere in L.A. (A)

Now we got to bond like Voltron (tron)

Tash you the bomb, Mos you the won ton (ton)

Q will pick the lead, I must drop on thee (thee)

A-B-S, I bust down, facility (ty)

T-R-A-C-T is the MC (cee)

It's the LL, inside the place to be (be)

[Mos Def]

Tash Love... are you ready to rock the mic?
