(Intro)

Peace...Peace, Peace

It's the bay

Thank you very kindly, han solo(??)

You coulda been anywhere in the world, but you're here  
with us

We truly appreciate that.

(Mos Def)

Bay...

This is the way it is, this how we gotta live

It's peace, power, overstanding no cowardice

I got the sharps on, they keep the smarts on (??)

Custom fitted, surgeon throwin the darts on (??)

Good lordy, sweet jesus and hot sauce

Hot butter, the big angles and pop corn

The over-range, the top on the top gone

The underground, the top doggin at ballin

The crescent and the star

The seven inner R's

Sciences and all

Vibrant in the dark

At the speed of thought, wow

The mind's so powerful

It ain't long for your dreams it's surrounding you

Caution Caution, Careful Careful

A whole lotta fun but it ain't that simple...

The mathematic, Asiatic, black magic, rap captains stay  
active free captives

nigga what's happenin?

Listen, life is fantastic

Beautiful and tragic

Plain, classic

Long as I'm alive imma never stop rappin

It's honest work for honest bastards

Made in manhattan, raised outta brooklyn

It ain't shit that you can do but keep looking

Shook, cause they all crooks

My hands keep clean even off the books, see yo

This is the way it is, this how we gotta live  
It's peace power over standing no cowardice  
I got the sharks on, they keep the sharks off
