AGORAPHOBIC NOSEBLEED

I don't worship the devil, I just hate Christians.
I'd slaughter them all if I could, wipe them from this
"heavenly" earth.
Anti-christian, not the Antichrist, this is no Gothic
struggle. A reason to pray in school.
Weapon of war, not Satan. Burn their churches, homes
and schools.
Bring me Pat Robertson's head on a fucking plate.
Evangelical holocaust of a biblical proportion. Moses
separating church from state.
Ammunition convey to the front lines, hicks in body
armor, armored saints.
Biological attacks across the bible belt. The fat of the
American farm land set a flame.
Take no hostages, kill them all, in their saviours name.
