AGORAPHOBIC NOSEBLEED

Arabian goggles over Baghdad. Condoleezza steamer
on an old man's chest.

I don't give a fuck, Saddam took it like a man.

Bush would have cried, begged for his life, taken out a
second mortgage on his soul,
fucked around on his wife and defaulted the entire
loan.

Life's a lovely tit to gently squeeze or a boob to wrench
and bruise.

I honestly don't give a fuck, unemployed and the
economy is great.

To all the southern boys getting sand pounded up their
ass, my thanks.

America escapes the breadline again, this time in hi-
def, seven speaker surround sound.

Ate so much wartime pussy I'm really puttin' on the
pounds.

Life's a lovely tit to gently squeeze or a fucking boob to
wrench and bruise.
