That's it
More like it
(I need a man)
That's it
Ooooooh
Come on
(I need a man)
Ooooooohh
Slow it down

I'm feelin I need a man tonight
And my fianc  won't cut it for me
Monogamy has never been my thing
And when I'm married it won't be either
I don't wanna go through my black book list
Those old friends
No they're so pass 
I wanna meet someone else new tonight
Someone dirty who will never love me
(I need a man)
A man raised by the streets
Touch of scandalous
Who's thrown a fist or two in a bar
I grab my coat
My fianc e asleep
Never knowin that I've gone away

I need a man
To take care of me
I need a man
Who already knows
I need a man
Who understands my needs
I need a man
Who can handle my flow

At the bar suddenly I spot a man
He turns around and my shadow turns into his
A prediction of what's about to come
His body language screams out he's here for a
reason
I signal to him deeply with my eyes

(I need a man)
Know Iâ€™ve hooked him when I say my name
Heâ€™s blinded by what all that I say
And tonight heâ€™s my fair game
For a moment I feel a slight regret
Lyin in bed at this strangerâ€™s apartment
Being showered with false compliments
I say letâ€™s do this again Friday
(I need a man)
And he never suspects a thing
I turn away and pretend it never happened

I need a man
To take care of me
I need a man
Who already knows
I need a man
Who understands my needs
I need a man
Who can handle my flow

So now I feel a little bit weird
I come home and find
This person I love lookin at me from the couch
With a few questions of where I was
I lie and say I was just out with a friend
But my fianc  e knows Iâ€™m lyin
My fianc  e says were you out with a man
And I suddenly confess cryin

I need a man
To take care of me
I need a man
Who already knows
I need a man
Who understands my needs
I need a man
Who can handle my flow
I need a man
To take care of me
I need a man
Who already knows
I need a man
Who understands my needs
I need a man
Who can handle my flow

As soon as I apologize
Iâ€™m back in his arms again
But my fianc  e wonâ€™t be surprised
Cause we have an understanding
