See that girl  
Lookin towards the backgammon  
She's eyein you from across the table  
She wants you to make a move  
Grab her by the waist  
Ask her if she'd like to dance tonight

(Careful don't fall too hard)  
Can't help tonight it just feels so right  
(Watch your step when you fall)  
Eyein you from across the room  
(Be careful that's all)  
The casino lifts me up and it feels like sweet candy

She knows exactly what she wants  
She's gonna be the one who loved you tonight  
She wants you to test drive her into science fiction  
Take her on a fantasy ride with all your secrets  
She knows exactly what she wants  
She's not afraid of the man with the golden gun  
She's not backing away for a millisecond  
She knows she's squarin off with James Bond tonight

She knows she's squarin off with James Bond tonight  
Oh with James Bond tonight

The cards fold up and down  
She takes a shot of whiskey  
Like sayin I can do what any man can  
And she bats an eyelash  
She's not like other girls  
She thinks you've got that je ne sais quoi

(Careful don't fall too hard)  
Can't help tonight it just feels so right  
(Watch your step when you fall)  
Eyein you from across the room  
(Be careful that's all)  
The casino lifts me up and it feels like sweet candy

She knows exactly what she wants  
She's gonna be the one who loved you tonight

She wants you to test drive her into science fiction  
Take her on a fantasy ride with all your secrets  
She knows exactly what she wants  
She's not afraid of the man with the golden gun  
She's not backing away for a millisecond  
She knows she's squaring off with James Bond tonight

Just breathe  
You can't handle my suspense

(Careful don't fall too hard)  
Can't help tonight it just feels so right  
(Watch your step when you fall)  
Eyeing you from across the room  
(Be careful that's all)  
The casino lifts me up and it feels like sweet candy

She knows exactly what she wants (she wants)  
She's gonna be the one who loved you tonight  
(tonight)  
She wants you to test drive her into science fiction  
Take her on a fantasy ride with all your secrets

She knows exactly what she wants  
She's gonna be the one who loved you tonight  
She wants you to test drive her into science fiction  
Take her on a fantasy ride with all your secrets  
She knows exactly what she wants  
She's not afraid of the man with the golden gun  
She's not backing away for a millisecond  
She knows she's squaring off with James Bond tonight
