Spring time turn upon ourselves
Down the tracks down the road
Changed my heart, broke us apart
I'm finally free, I'm finally free

You'll never know the hurt I suffered
Fucker you'll never know (x4)

Cover up the truth with your lies
The hurt I suffered kiss goodbye
I'm someone else is what I'm told
To each his own, to each his own

Leaving, I'll be on my way
Just know you're not alone
Leaving, it's so hard to do
Wrapped up in your arms

You'll never know the hurt I suffered
Fucker you'll never know (x4)

Dogs run free don't you breathe it
Then what must be then what must be
You'll never know the hurt i suffered

Leaving, I'll be on my way
Just know you're not alone
Leaving, it's so hard to do
Wrapped up in your arms

You'll never know the hurt I suffered
Fucker you'll never know (x8)
