### [Verse 1]

I float through the world, like a letter in the bottle  
Hope it reach the other side, if it doesn't hit the  
throttle  
Got a lot of stress on my chest (chest)  
Never let it, get my best (nah)  
Best foot forward, yes, step fresh force like a hurricane  
Kaz-well, you heard the name, (Kaz-well)  
Put it on your mind light the purp to the brain  
Fish outta water man, fly like a white crane  
In the nighttime, ride a light frame, in the bike lane  
Might change your life, if you're searching for the  
cure  
Soak my sound up, see its much more pure  
Round up my FAM, bar-b-que by the porch  
Cold ice, told me learn stick you bout to get a Porsche  
Got his site on a db8, I mean a db9  
Never deviated from my path, see the silver line  
Between the earth and space, water and the sky  
Gotta shake the haters off my back, if I'm going to be  
fly  
[Chorus]  
Just drive, by, on to  
Just drive by  
Just drive by, down to the beach  
(Yeah, yeah, yeah, yo, yeah)

### [Verse 2]

Yo, our body need the water, but we want the malt  
liquor  
Why you bumping other dudes, when my music more  
sicker  
I'm a real cold spitter, but I don't need to tell you that.  
Not a dope dealer, cause I don't need to sell you that  
Hit'em with a hi-hat, get'em with a good hook  
I'mma show you the light, put that on the good book  
Girl you so right, intelligent with the good look  
Selling me your portfolio, that's a good jook  
Hook me up so I know I'm a live, no I.V.  
I be, flowing on the fly, my life's a freestyle  
So I know I'm going to die, finger on the fast-forward

Never on rewind, Iâ€™mma come back when god punch  
me on the next  
track  
Till then, stay unfadeable like a vestax

[Chorus]  
Just drive by, down to  
Just drive by  
Just drive by, down to the beach

(Yeah, come on yeah, yeah)

[Verse 3]  
I got about sixty years, till I see paradise  
Bout 15 till the Dalai Lama is my a-alike  
Spread wings take flight, right now  
I just learn how to land, when the time comes around  
Feel alive when the sun goes down, half man, half  
animal  
A hunter on the prowl, nocturnal like an owl,  
Use my words for the power, move mountains,  
Separate the kings from the cowards, your lightweight  
handshake  
Means youâ€™re a sucker, looking at me sideways  
Man, we could've been brothers, in my lifetime  
Did the dirt with the cutters, wash my hand with the  
water  
Now I float like the otter, man I float like harry potter on  
the broom  
Listen to the boom (Boom)  
While Iâ€™m chilling on the sand dune, by the beach  
Reaching my peak, speak now  
Or forever hold your peace, and I'm married to the beat  
like  
I do, man I do what I do, me and Scotty doo  
Fish outta water be the crew, that got you (Got you)  
Open (Open)

[Chorus]  
Just drive by, on to  
Just drive by  
Just drive by, down to the beach

Just drive, by, on to  
Just drive by  
Just drive by, down to the sea
