Aye, aye
Shhh, Gotta listen close
Yeah
I say, I say

[Verse 1]
I say better late, then never
(Never)
My spaceship awaits
I would of waited forever
Stepping on the escalator to the top
Is inevitable
Humble men never stand on the pedestal
His hand on a digi board
(Digi board)
Me, spitting words
While his fingers on record
(On record)
These are the living moments of a soul
Bout to transform into a light beam
Slow down to the speed of sound
So you sight me
Spot me, like a silver disc
Over colorado rockies
You feel this all in your body
IÂ'm all alone in Mohave
Deep mediation
While my soul screaming watch me
Still adolescent
Had to tell him not your papi
Got to grow with me
At the speed of mach 3
To see what I'm bout to be
Beam like solar
Shower down on the mountain peak
Only thing bound to me
Is music and this gravity...

[Chorus]
Me, IÂ'm right here
So face me now
Invincible...

You can never break me down
On principle...
You can never fade my style
It's the Whisper of the Godz...
That's the way I sound
Me, I'm right here
So face me now
Invincible...
You can never break me down
On principle...
You can never fade my style
It's the Whisper of the Godz..
That's the way I sound

[Verse 2]

True freedom, is to
See your position
If you're not satisfied
You have the right to leave him
In the middle of the night
Just peace him...
Leaving little trails of star dust particles
Sort of similar to the way
The once young Hailey comet fall
(And when the comet falls, that's when I honor yall)
Little kids wish on you...
Then go tell their best friend, what they said
That's why it don't come true
Somebody go tell Kaz-well
I don't love you...
Shoot, it wouldn't be the first or the last
What's worst?
Getting gas by the lovers
Or harassed by the haters?
I ask
Cause I need a gas mask for the vapors
Maximum capacity on the elevator
That's why I had to tell my friends
Take the escalator
I see you up there
Squint when the sun glares
I know it's unfair...
But hey, come here!

[Chorus]

Me, I'm right here
So face me now
Invincible...
You can never break me down
On principle...
You can never fade my style

It's the Whisper of the Godz...
That's the way I sound
Me, I'm right here
So face me now
Invincible...
You can never break me down
On principle...
You can never fade my style
It's the Whisper of the Godz...
That's the way I sound

Can you hear me now?
Gotta listen real hard
Yo, can you hear me now?
It's the Whisper of The Godz...
Can you hear me now?
Gotta listen real hard
Can you hear me now?
It's the Whisper of The Godz...
