Everytime I think about you,  
Every single night and day.  
I cannot let one damn second,  
pass away.

When I think about the good times,  
I always shed a tear,  
but I keep hearing a little voice saying,  
im right here.

Now i know your looking down at me,  
I see the stars above,  
but when i think about you,  
all I feel is love.

I miss your hugs and kisses,  
the way you tucked me in.  
I'll always keep you in ma heart,  
no matter where im at.

Now I wish you were here next to me, instead of far  
away.  
I know this is goin 2 be tough,  
I have to let you go when I wish you would stay.
