"12 Steps"

Turn your face up to the sun
You've just begun, you've just begun
So you head out in the wind
To put yourself, 12 steps from them

Tell me what you want
Tell me what you need
Tell me all the lies that are in your head
But I think I would stay away
Tell me what you want
Tell me what you need
Tell me all the lies that are in your head
But I think I would stay away from dead
Now you know it's right
Now you know it's right

When your world came crashing in
You lost yourself, somewhere out there
So you see we're just the same
We picked up our paths, in fields of pain

Tell me what you want
Tell me what you need

Tell me all the lies that are in your head
But I think I would stay away
Tell me what you want
Tell me what you need
Tell me all the lies that are in your head
But I think I would stay away from dead
Now you know it's right
Now you know it's right
Now you know it's right

Cause it's played out now
Played out now

Why don't you
Tell me what you want
Tell me what you need
Tell me all the lies that are in your head

But I think I would stay away
Tell me what you want
Tell me what you need
Tell me all the lies that are in your head
But I think I would, stay away
Stay away, stay away
