Shake the shackles tied around your feet
Lift the veil out from your eyes and see
Don't you think?
Don't you think?
Everybody wants come and see
What it is we see inside our dreams
Don't use me
Don't use me
Falling down
We're all coming down

You know you can move it
I know you can move it
Use it you've gotta shake it loose
I know you can move it
I know you can move it
You gotta shake it shake it loose

Everything you've got is what you need
Don't call me out you'll come around to see
Wont you please
Let em sing
Falling down
We're all coming down

You know you can move it
I know you can move it
Use it you've gotta shake it loose
I know you can move it
I know you can move it
You gotta shake it shake it loose

I know you feel the pain
But we are all the same
Perpetual people standing out in the rain
I know you can move it
I know you can move it
You've gotta shake it loose
