Kindred spirits you and I  
You are my best friend  
You are a rock for me  
Hope I'm the same for you  
Ten years of grounding we have  
You have a place in my heart  
I want to keep you safe

In my arms you can find protection  
In my arms you can find acceptance  
In my arms you have a safe place to fall  
In my arms you will be loved always

What we have is beautiful  
Pure and uncomplicated  
A perfect friendship that we have  
We are each others keeper

In my arms you can find protection  
In my arms you can find acceptance  
In my arms you have a safe place to fall  
In my arms you will be loved always

You were always there for me  
Through all the highs and lows  
I am there when you need me  
In each other we are safe

In my arms you can find protection  
In my arms you can find acceptance  
In my arms you have a safe place to fall  
In my arms you will be loved always

In my arms you can find protection  
In my arms you can find acceptance  
In my arms you have a safe place to fall  
In my arms you will be loved always
