Came in as no-one
Leaving as someone powerless
You were the sole one
Helpless you were alone

[CHORUS]

I want to get by
I want to return
I want you to fly
Only bitterness burnt
How do I get there?
How do I pass?
How could you leave
Without looking back?

Left him for to grow
Untainted by his shadow
Blamed him not for it all
Just too well learned a man to fall

[CHORUS]

Heard all you had to say
Though it changes not a thing today
Forgiveness is so much to ask
When findings re-write the past.

[CHORUS]2x
