I'm going away

To find the Sun

I'm going today

I'm going away

To find the Sun

No more to say

I'm going away

To find the love

I'm going away

It's all about the way you move

It's all about the way you move

It's all about the way you laugh, the way you smile and
walk the path

All about the way you move

I'm going away

To find the Sun

No love today

I'm going away

Goodbye to love

There's no more to say
