Leaves, please be my light filter  
Shine, make me a shelter to hide  
Cos love makes you lose your sight  
And now the search party's on its way  
And the floodlight's on my face  
All the shadows that I walk in  
Are just my volatile second skin

My reflections are protections  
They will keep me from destruction  
My directions are distractions  
When you're ready come in to the light

Lines, design a pathway  
Shine, cut out the dark shapes to find  
Although I've really tried  
Only time is a lover's guide  
And now the railings fall away  
And the stencils draw a face  
Our outlines in the sunset  
Are just a fragile silhouette

My reflections are protections  
They will keep me from destruction  
My directions are distractions  
When you're ready come in to the light

My reflections are protections  
They will keep me from destruction  
My directions are distractions  
If you leave me I'll go back to hide

My reflections are protections  
They will keep me from destruction  
My directions are distractions  
When you're ready come in to the light

My reflections are protections  
They will keep me from destruction  
My directions are distractions  
If you leave me I'll go back to hide
