The bloodiest will loathe the cleanest
Like scavengers with desperate, wild eyes, the abused
becomes the meanest
Of all the starving, I am the leanest
Remember me - remember me to no one
Cut out - cut out my restless tongue
The disastrous compulsions which lead me to this
embrace like a plague, like a viper's kiss
Cut out my tongue to stop the screaming
Its human nature to keep on dreaming
Magnifying just to see less
Sewn together until seamless
Every one of us will be this: drugged and fucked until
dreamless
Remember me - remember me to no one
Cut out - cut out my restless tongue
The disastrous compulsions which lead me to this
embrace like a plague, like a viper's kiss
Rest your ugly head and sleep now
Sleep now
Life will change
Keep dreaming
Life will change
Keep dreaming
