Bound by inability
And left suffer the absence
Words have failed me once again.
Attempts at completion
Have again left me empty.
Fate's design
Has forced me
(repeat 1x)

to live without
(repeat 2x)

And when I close my eyes
I envision
One so undeserving of your presence
One who does not appreciate you as I
One who needs not struggle with your absence.
(repeat 1x)

I've seen it happen
In other peoples lives
And now it's happened in mine.
