

Most Precious Blood

"Open Road"

Visit "[Open Road](#)" on MotoLyrics.com

All I have is
All she gave me
All I needed
Out of reach

Goodbye love, no
Colours
One less tear fall

It's easy to lose control
When you're out on the open road
There's nobody left at home
And you're feeling so cold

Empty house won't
Empty heart won't
Avenue that
Time won't forget

It's easy to lose control
When you're out on the open road
There's nobody left at home
And you're feeling so cold

It's easy to lose control
When you're out on the open road
There's nobody left at home
And you're feeling so alone

There's nobody left at home
And you're feeling so alone

It's easy to lose control
When you're out on the open road
There's nobody left at home
And you're feeling so alone
