"Arms Around The World"

Visit "[Arms Around The World](#)" on MotoLyrics.com

All around the world, my love will always be the same
New York or Tokyo, Rome, Paris, Egypt or Spain
Wherever I am, I will always think of you
No matter baby, my love will always get to you
When I think of you, my love can fly

Chorus:

You and I, gonna wrap our loving arms all around the
world

Gonna capture all the love in the universe
Gonna make it shine

And wrap our arms around the world
I swim th eocean to be with you every night
I cross the desert and bring to you the Sahara light
Wherever I am, I will always come to you
As long as you're there for me, baby, I'll find you
When I think of you, my love can fly

Chorus:

You and I, gonna wrap our loving arms all around the
world

Gonna capture all the love in the universe
Gonna make it shine

And wrap our arms around the world
Oh oh, yeah. Around the world
And wrap our arms around the world
I never thought that I could find someone
I never thought that I could reach the sun
I never thought that I could feel your love Around the
world

Chorus:

You and I, gonna wrap our loving arms all around the
world

Gonna capture all the love in the universe
Gonna make it shine

And wrap our arms around the world
