And by the way I had to come to you  
To see if the love that we knew before  
Could pass the test of time  
Time - it changes almost everything  
Sometimes I don't see the better side  
Of the feeling we both share, so baby  
Chorus:  
Let's go round again  
Maybe we'll turn back the hands of time  
Let's go round again  
One more time  
(x2)  
One more time  
Now baby I know  
That you think I might be different now  
Inside of me nothing has changed  
So I'm asking you again  
Please, no one else could've bought me back  
No one else could ever set me free  
Of the memory I had within my heart  
Repeat chorus  
One more time(x5)  
Repeat chorus to fade
