It should have been,
It should have been,
It should have been,
It should of been a clue
When all of your friends said
"Good bye" and "Good luck"
When I started here with you.
I wanted to love you,
But you would have had to been there.
I wanted to love you but you got to admit you care.
What's the big idea?

I guess to safe to say its over.
I guess to safe to say its over.
I guess to safe to say its over.

Keep telling me,
Keep telling me,
Keep telling me,
Keep telling me you love me,
Maybe this time it'll stick.
If all you wanted was a song,
I hope that this one does the trick.
I wanted to love you but you would have had to been there.
I wanted to love you but you got to admit you care.
What's the big idea?

I guess its safe to say its over.
I guess its safe to say its over.
I guess its safe to say its over.
I guess its safe to say its over.
I guess its safe to say its over.

?? of the cemetary.
Copy and sunrise.
Could this be a future in disguise?
What's the big idea?

I guess its safe to say its over.
I guess its safe to say its over.
I guess its safe to say its over.

I guess its safe to say its over.
I guess its safe to say its over.
I guess its safe to say its over.
