(6:38)

lady of the valley  
can you hear me cry  
in the sillness of the night  
I have lost my brother  
in the fights of the war  
and my heart has broken down

in the night I cry but no one seems to hear  
I step into the light but all I feel is fear

lady of the valley  
can you bring him back  
to the days when we were kids  
once we were together  
we stood young and strong  
now it seems so long ago

the golden key is at the end of the chain  
how it hurts ohh lady free me from this pain

in the night I cry to the lady of the valley  
cause I'll die without the lady of the valley  
in the night I call to the lady of the valley  
on my knees I fall before the lady of the valley  
in the valley lies the treasure  
and the lady guards it well  
he who bears all the pressure  
is the one to break the spell  
there's a sign that I've followed  
and it has led me to your seat  
I have brought my fallen brother  
and I've laid him, yes I've laid him  
at your feet

in the night I cry to the lady of the valley  
cause I'll die without the lady of the valley  
in the night I call to the lady of the valley  
on my knees I fall before the lady of the valley
