"Lucky Lament"

Visit "[Lucky Lament](#)" on MotoLyrics.com

Well everyone knows you're no good, you needle
everybody in the neighbourhood, everyone everyone
knows you're no good

And everyone knows I don't lie, not to anybody but you
or I, everyone everyone knows I don't lie

Well is that why, is that why, you left me here to die?
Tell me is that why, is that why, you hung me out to dry
with a blackened eye?

Well everyone knows you are slack, you're never
looking forward but you won't look back, everyone
everyone knows you are slack (it's totally whack!)

And everyone knows you got soul, you'll find it at the
bottom of a big black hole, everyone everyone knows
you got soul (no soul!)

Well is that why, is that why, you left me here to die?
Tell me is that why, is that why, you hung me out to dry
with a blackened eye?

You see it gets me down and I'm...
Sick & tired of doing whay I should, doing what I should
you know it aint no good I'm...
Sick and tired of doing what is right doing what is right
and never sleep at night...
Well is that why, is that why, you left me here to die?
Tell me is that why, is that why, you hung me out to dry
with a blackened eye?
