Iâ'm going, out in my dreams  
There is only one person that can be  
I hate my life, so and so  
There are people that see me, but they just come and  
go  
I think I might just go away, till I heard that voice inside  
me say  
Hey

Chorus  
She loves you  
He wants you  
They all wanna be with you  
They all wanna be with you, yeah  
Close your eyes  
Save your voice  
Itâ's all just a dream with lots of noise

Iâ'm walking through the forest when I heard a cry  
Iâ'm so depressed, I just take a sigh  
Iâ'ts all happening in one day  
I guess I just donâ't know what to say  
So this is what I say

Chorus

Iâ'm hearing it all  
Itâ's all hearing me  
I just want to get away from this place  
They â're coming after my life  
LORD PLEASE HELP ME!!!  
Help me get through this night  
Iâ'm gonna die in my mind

Chorus until fades away
