

## Lindstrom "Coming True"

Visit "[Coming True](#)" on MotoLyrics.com

Tonight must be a magic night  
Cause I can see stars falling in your eyes  
Tonight must be a magic night  
Cause I can hear thunder in each and every heartbeat  
I know it sounds crazy  
But dreams are coming true  
Standing here with you  
Everytime you smile at me angels walk on through  
I'm ready now to go  
I'm ready now to follow my heart  
Chances are we're gonna make it through  
If you believe it too  
That dreams are coming true  
Tonight must be a magic night  
Cause I can feel your love  
Reaching to embrace me  
And baby when you take my hand I understand  
This love is all or nothing  
This love is here and now  
I know it sounds crazy  
But dreams are coming true  
Standing here with you  
Everytime you smile at me angels walk on through  
I'm ready now to go  
I'm ready now to follow my heart, follow my heart  
I was lost and gone forever till I found myself tonight  
Back into the light  
Cause I never stopped believing  
Dreams are coming true  
Dreams are coming true  
Standing here with you  
Everytime you smile at me angels walk on through  
I'm ready now to go  
I'm ready now to follow my heart  
Chances are we're gonna make it through  
If you believe it too  
That dreams are coming true  
Cause I'm standing here tonight with you
