

The Motels

"Take The L Out"

Visit "[Take The L Out](#)" on MotoLyrics.com

Watching my head, holding my face
One more evening gone to waste
No longer do I know my place
Killing time and missing my cues
Watching her belong to you
Tears could only change my view

Take the L out of lover and it's over ((x2))

Growing up has always been tough
Good intentions never good enough
I would take you far away
Do anything to make you stay

Take the L out of lover and it's over ((x3))

Every drink and cigarette
All those hands we never met
There are things we should forget
Now its over
Over

Take the L out of lover and it's over ((x3))

((music))

Take the L out of lover and it's over ((until fade))
