[Chorus: Last Emperor]

Now if I loved you would you love me back?  
Would you confess that I was the best that you've ever  
had?  
Would you allow me to hold you, show you exotic  
lands?  
Well there's no need to look any further, you got your  
man

[The Last Emperor]

Turn off the lights, let me close the door  
Two bodies, one common cause, a million ways to  
explore  
Would you be willin' to be Emperor's tool and  
Emperor's raw  
Stop frontin', come to something you've never felt  
before  
Now I got it, never let another take it from me  
You need it, I can see it, I can tell by the way you touch  
me  
Long for me when I'm gone although while thinkin' of  
me  
Allow me one moment in time, I'ma make you love me

[Chorus]

[The Last Emperor]

What is it you desire Your Highness? Ask, I'll listen  
Someone above the average thug, a man, a vision  
Let me be your knight in shinin' armour, a man with  
riches  
Be the Genie of ya magic lamp, I'll grant your wishes  
Play the starring roll, be the leading actor  
Let me be the Mark Anthony to your Cleopatra  
Your only protector, once I got ya, let me at ya  
Quicken your pulse, have your heart beatin' faster  
Be the master of your happiness to keep it all  
Be the spouse, come and live in my house, it be your  
home  
Would you accept as sacred or hate it, leave me alone  
Or love it like Mike Douglas and Catherine Zeta Jones

[Chorus]

[The Last Emperor]

Ya couldn't find another guy to satisfy ya every need  
Every dimension inch of the earth and the Seven Seas  
I'm that person, end your searchin' cause I got what  
you need

???????, ain't no problem just follow my lead

Come my direction, under my protection I'll take you  
there

No question, my loves perfected, yeah you can say it's  
rare

Love makin', we shares a moment that's frozen in time  
I know how to treat my lady and baby I'm goin' for  
mines

Here to conquer, defend your honour and fight your  
bouts

Would you let me know the intimate things you think  
about

You gotta make me a father, come on and just have my  
child

Stop the procrastinatin' and waitin', lets it now

[Chorus] x2
