Life's so funny i could puke
On your sunday dress and my blue suit.
It's obvious the fun is gone.
Oh you used to look so young.

We can get it back.
Tastes like crack, fade to black.
We can get it back.
You used to be my heart attack.

Let's dance the way we used to dance.
Watch me fall down to the floor.
They miss the way you hang my head.
Life's not us anymore.

We can get it back.
Tastes like crack, fade to black.
We can get it back.
You used to be my heart attack.

Yesterday is gone.
Yesterday is gone.
Yesterday is gone.
Yesterday is gone.

Life's so funny i could puke.
On this champagne and perfume.
I'm so happy i could shit.
From the joke that no one gets.

We can get it back.
Tastes like crack, fade to black.
We can get it back.
You used to be my heart attack.

Yesterday's gone.
